

BERAT UYANIK

DEVOPS & CLOUD ENGINEER · KUBESTRONAUT

Amsterdam, Netherlands / brtuynk@gmail.com / linkedin.com/in/berat-uyanik

PROFILE

Over the past 7+ years, I've worked as a DevOps and Cloud Engineer at telecom, fintech, and consulting companies, where I built and ran the infrastructure that kept their products online — managing it all as Infrastructure as Code (IaC). I designed and automated Kubernetes platforms end to end, hardened clusters for security, and set up CI/CD pipelines that helped teams ship faster. Along the way I specialized in making cloud-native systems reliable, secure, and scalable.

EXPERIENCE
